

*The Oak Meadow Farms*

# 6TH ANNUAL PRODUCTION SALE

FEB. 11, 2024 AT 1 PM- CRESCO, IA

*Simmental and Sim Angus Genetics*

  
*Oak Meadow Farms*

## *Sale Schedule*

**Saturday, February 10, 2024**

Cattle on display 1:00 - 5:00 pm CST

**Sunday, February 11, 2024**

Cattle on display beginning at 9:00 am

Lunch served at 11:30 am

Sale Begins at 1:00 pm CST

## *Sale Location*

**Howard County Ag Education Center**

220 7th St W - Cresco, IA 52136

*Cattle will be onsite beginning Saturday, February 10, 2024.  
Some of the bred heifers may be left at their respective farm in  
the event they appear to be close to calving.*

## *Sale Updates*

Please visit the Oak Meadow Farms or Innovation AgMarketing, LLC Facebook Page for sale updates and announcements. In the event there is a snowstorm or winter weather advisory, we will make announcements regarding the start time of the sale.

## *Supplement Information*

A supplement sheet will be posted at DVAuction.com with ultrasound data and scrotal measurements. Additionally, the supplement sheet will outline special terms & conditions and/or retained semen interest in any of the bulls selling.

# OMF

# Oak Meadow Farms

**Friends,**

The Aggen, Bigalk, and Seinola families would like to wish you a warm welcome to the Sixth Annual Oak Meadow Farms Production Sale. We are once again excited to have produced a set of bulls that are backed by the hard-working females that make up our respective programs. As breeders we have been diligent in our genetic selection and are dedicated to producing healthy, high-quality Simmental and SimAngus™ beef cattle. We take our role as your seedstock provider very seriously and will continue to make genetic investments annually to improve the product we offer.

Now more than ever quality genetics and customer service are a must. One example is our popular Oak Meadow Farms influence customer appreciation feeder calf sale held every November. We appreciate and value the relationship we have with Joe Nelson and the industry leading commission firms that he and his family operate in Lanesboro, MN and Decorah, IA.

The cattle in this offering excel in their physical traits and have strong EPD's and Indexes with the common goal of customer success. We welcome you to join us on February 11th at 1 PM for our Sixth Annual sale that will be held in Cresco, Iowa at the Howard County Ag Education Center. The sale will be a video auction in the comfort of the state- of-the-art climate controlled building. We will have videos of the entire offering and welcome you to stop by the farm prior to the sale. The sale cattle will be on display the day before the sale and sale day for your inspection as well. Please feel free to call or text us to discuss the offering, thank you for your interest!

# *I*NNOVATION — AgMarketing, LLC —

## ***Welcome,***

Matt and Dr. Lynn Aggen are disciplined, fundamental cattlemen that have never strayed from the thought of the end product in mind. The perfect blend of physical appearance and the numeric values is what has always defined Oak Meadow Farms and the product they are proud to put their name on. This approach hasn't always been the most popular, but it has placed the family operation in the driver's seat the past few years as the annual, nationwide quest in search of the absolute best has led many discriminating seedstock cattlemen to the annual production sale held on the second Sunday of February.

OMF Journeyman J24 was the sale topping stud two years ago. His freshman class will highlight several bull sale offerings this spring including this one for Oak Meadow Farms! Like OMF Journeyman J24, his progeny are saturated with sheer power and raw performance. They will make the right impact for their new homes and have a major contribution towards efficiency and ability to generate premiums in the final stages of marketing the end product. OMF Journeyman J24 experienced an aggressive and brief semen marketing venture with significant demand and use on the business' best of the best. This year's event will feature many maternal brothers and sisters to individuals of significant influence within the beef cattle industry. A maternal brother and sister to OMF Epic E27, a maternal brother to OMF Hard Right H21, and a maternal brother to OMF Journeyman J24 to name a few will certainly highlight the event!

The Oak Meadow Farms focus has always been about balance and never about the current trends. It's an operation that proves that focus, discipline, and the unwavering ability to stand one's ground will reward an outfit in due time. Matt has always focused and geared on performance, knowing that through their commercial bull sales what he offered their loyal customers had to be dense cattle that weigh at weaning and at yearling to fit the customers pay day window. So, if the cattle were marketed at weaning the customer captured every dollar available and if fed and retained all the way through to harvest, they were able to capitalize on weight and carcass premiums as well. However, the operation is also no stranger to the tan bark or exhibiting their product at exhibitions throughout the country and especially the National Western Stock Show in Denver. They have exhibited champions on "The Hill", but the most backdrop photos have been taken in the coveted pen show environment with Champion or Reserve honors awarded multiple times throughout the history of the family showcasing their product in the Pen of Three or Pen of Five "In the Yards". They know what the stock needs to look like, they understand that they need to be part of the food supply, and they know that all this is only possible when one focuses on feet, structure, eye appeal, fertility, conversion, and pounds of product produced.

Oak Meadow Farms cannot do this event alone, so they have always included a pair of outfits that have invested and took the mentorship and guidance of the Oak Meadow path. The Aggen Family is very proud to have Diamond K Simmentals, Dr. Kory Bigalk and Family, along with Five Star Ranch, Jared Seinola and Family, on board. Both outfits are very forward thinking and progressive and compliment the offering in the highest regard. Five Star has been very competitive in Denver over the years and has had many sale features through this production sale series. Diamond K Simmentals and Five Star Ranch both have the same mindset for producing numerically superior seedstock with undeniable phenotype with the end product in mind. This trio of families are competitive on every level and angle the industry has to play on – all three desires to be the very best!

If you have serious interest in improving your program with the right stock and genetics, then we strongly encourage you to consider the 6th Annual Oak Meadow Farms Production Sale as your destination to sort through some of the most elite Simmental and SimGenetic seedstock available in the business. The people that back these creatures are elite and first class in nature as well. If you haven't had the privilege of ownership of the brand, there's an opportunity annually to get it done. Consider this your personal invite to join the families that support and built the trusted brand of southeast Minnesota. See you at the sale in Cresco, Iowa!

Enjoy the cattle,

*Graham Blagg*

*Jared Shipman*

*Tim Anderson*

## SALE DAY CONTACTS

Dr. Lynn Aggen - (507) 421-3813  
Matt Aggen - (701) 866-3544  
Hunter Aggen - (507) 923-0815  
Dr. Kory Bigalk - (507) 251-0983  
Jared Seinola - (507) 271-2634

## AUCTIONEER

Col. Jered Shipman – (806) 983-7226

## RING STAFF

Austin Brandt - Lee AgriMedia – (712) 621-1829  
Mitchell Armitage - Special Assignment – (405) 641-9438  
Kelly Schmidt - Special Assignment – (406) 599-2395

## SALE MANAGED BY INNOVATION AGMARKETING, LLC

Graham Blagg - (530) 913-6418  
Jered Shipman - (806) 983-7226  
Tim Anderson - (605) 682-9343  
WWW.INNOVATIONAGMARKETING.COM

## ACCOMMODATIONS

Country Inn & Suites - Decorah, IA - (563) 382-9646  
Quality Inn & Suites - Decorah, IA - (563) 382-2269  
Super 8 - Cresco, IA - (563) 387-9233

## HERD HEALTH

All animals selling are tested negative for BVD-PI. Bred females are vaccinated with scour guard. All 3 herds have an extensive Johnes testing program, and have complete vaccination programs supervised by Dr. Lynn Aggen. In the event any of the bred heifers appear to show immediate signs of calving, they will be left at the farm in Harmony, Minnesota. Many are due on or around sale day.

## BULL GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

## VOLUME DISCOUNT

A 5% discount will be given on the purchase of 5 or more bulls.

## TERMS

Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed. Sale will be available to registered bidders via the Internet at DVAuctions ([www.dvauction.com](http://www.dvauction.com)) to accommodate both local and distant individuals who cannot attend in person. They provide a real-time internet broadcast during the sale. All absentee bidding will be done via internet to a ringside sale representative. Please register for bidder number at [dvauction.com](http://dvauction.com) any time prior to 12 Noon on Friday, February 9th to accommodate the approval process. After this date/time, bidder approval may be delayed. Approved bidders will be issued bidder number and access prior to the sale. For questions or sale bookings call Office M-F 8am-6pm CT: (402) 316-5460

## SEMEN INTEREST

Seller retains 1/3 semen interest in all bulls selling unless otherwise noted or announced from the auction block.

## RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction.

## INSURANCE

James Bessler - (815) 762-2641

## LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

## BOARDING

Bulls will be wintered at no additional charge until April 1, 2024. Bulls will have passed a thorough breeding soundness exam prior to pick up/delivery. Since each animal becomes the risk of the purchaser as soon as sold, we strongly recommend a mortality insurance policy be taken out on any animal that is left to be wintered. Any bulls left past April 1, 2024 will incur a \$3/Day feed charge.

## ANNOUNCEMENTS

Announcements from the auction block will precedence over statements in catalog. Disclaimer: The information in this catalog is subject to change.

## TRUCKING

Free delivery on all bulls within a 250-mile radius of the sale. In the event you have a further distance to travel we will assist in the coordination of your animals delivery. Here is a trucking contact that we strongly recommend. Dick Coleman (765) 461-0954

## ADVERTISING AND CATALOG PRODUCTION

**DVAuction**  
Broadcasting Real-Time Auctions

## ONLINE BIDDING

We are pleased to bring you real-time internet bidding and a live broadcast of this sale through DVAuction.com. If you are unable to attend for any reason, you may bid online at [dvauction.com](http://dvauction.com). Please register for bidder number at [www.dvauction.com](http://www.dvauction.com) anytime prior to 12 Noon on Friday, February 9 to accommodate the approval process. After this date/time, bidder approval may be delayed. Approved bidders will be issued bidder number and access prior to the sale. For questions or sale bookings call the Office M-F 8am-6pm CT: (402) 316-5460.

## A GUIDE TO EXPECTED PROGENY DIFFERENCES

**Expected Progeny Differences (EPDs):** EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPDs, A would be expected to sire 15-pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15-percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit [www.simmental.org](http://www.simmental.org). Listed below are the units ASA EPDs are expressed in:

- **Calving Ease (CE):** Percent of unassisted births when used on heifers.
- **Birth Weight (BW):** Pounds of birth weight. Calving Ease (CE): Percent of unassisted births when used on heifers.
- **Weaning Weight (WW):** Pounds of weaning weight.
- **Yearling Weight (YW):** Pounds of yearling weight.
- **Maternal Calving Ease (MCE):** Percent of unassisted births in first-calving daughters.
- **Milk (MLK):** Pounds of weaning weight due to milk.
- **Maternal Weaning Weight (MWW):** Pounds of weaning weight due to milk and growth.
- **Stayability (STAY):** Percent of daughters remaining in the cowherd at 6 years of age.
- **Carcass Weight (CW):** Pounds of carcass weight.
- **Yield Grade (YG):** Yield grade score.
- **Marbling (MRB):** Marbling score.
- **Back Fat (BF):** Inches of backfat.
- **Ribeye Area (REA):** Square inches of ribeye.
- **All-Purpose Index (API):** Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details.)
- **Terminal Index (TI):** Dollars per cow exposed under a terminal-sire scenario. (See below for more details.)

**\$ Indexes:** Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through well- conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your bottom line. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes: All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

**Terminal Index (TI):** Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield. Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years ( $\$50 \text{ diff.} \times 30 \text{ hd.} \times 4 \text{ yr.} = \$6,000$ ). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit [www.simmental.org](http://www.simmental.org).

*Members of the 2024 National Western Stock Show Grand Champion Pen of Three Simmental Bulls*

# From Our Customers

"We first introduced Oak Meadow Farm genetics into our program 10 years ago, with the purchase of the lead off bull in their Reserve Champion Percentage pen of bulls. We followed up for several years after that selecting open heifers from OMF to build our registered herd. We continued to purchase OMF sires to use on these OMF females to grow our herd.

These genetics really clicked with our program and advanced the quality of our cattle. Our private treaty bull sales continue to grow, as well as the bred female offering. These cattle run on a rotational grazing and hay program in Central Minnesota and thrive in this environment. We feel the docility, growth, and efficiency of our herd stems from the strong OMF genetics that we have been using.

"Buying seed stock from the OMF brand is seamless. Procuring quality cattle is important as is purchasing them from quality people. Three generational tiers of breeders indicate not only valuable experience but also commitment to their vocation. I'm confident my investment in genetics is sound when backed by such a program"

- Adam J. (AJ) Weis, Burlington, WI

"I have purchased a bull, bred, and a flush in past sales; each time thinking I got the buy of the sale. I've retained daughters for my herd out of each investment. The bull has bred spring and fall cows each year since he arrived. Perfect toes, second to none disposition, and the presence to win a show. These cattle have made me money, but the relationships and networking opportunities that I've gained by doing business with these firms is the most important to me."

-Ethan Wedeking, Plainfield, IA

- We initiate the 2024 Oak Meadow Farms Production Sale with one of the most intriguing individuals to ever carry the OMF prefix.
- OMF Ludacris L17 is a son of the \$230,000 KCC1 Countertime 872H, the ES Right Time FA100-4 son from the prolific KCC1 Havana 83E donor at Kearns Cattle Company. OMF Ludacris L17 is maternally supported by OMF Time Less B100, undeniably the most consistent and highest dollar generating donor dam at Oak Meadow Farms, therefore making him a maternal brother to the very popular OMF Epic E27.
- Study this true performance standout and you will notice his outstanding skeletal build, top-notch eye appeal, stout features from the ground up, ideal muscle pattern, and overall herd bull stature.
- His individual performance is among the best in this sale offering for both weaning and yearling weight. Aside from being homozygous black and homozygous polled, the genetic profile reads of a sire that will maintain calving ease, improve carcass characteristics, and sire progeny that move your herd in a profitable manner, both male and female.
- His maternal sister, OMF Kristy K88 leads off the bred female division of this year's sale.
- Top 15% CED, BW, API, top 20% MCE, MARB, top 25% DOC, TI, top 30% STAY.

## NWSS Display Bull

- OMF Last Minute L16 is another featured member of the KCC1 Countertime 872H sire group. He is a maternal brother to the \$110,000 OMF Journeyman J24, the lead off member of the 2022 NWSS Grand Champion Pen of Three Purebred Simmental Bulls.
- He is a stout featured, bold ribbed, big ended stud that offers added length of body, muscle expression, and functionality.
- The KCC1 Countertime 872H sire group is full of high performing bulls in this 2024 offering, and L16 leads the way with his weaning and yearling measures. He excels on paper for growth and carcass improvement while still carrying high rankings for female longevity. Homozygous black and polled.
- Top 10% YW, top 15% WW, ADG, MARB, TI, top 20% API.

# THE COUNTERTIME SIRE GROUP

LOT 3

- A favorite of many as we prepare for the sale, OMF Loyal L9 is impressive in the pens as he excels in terms of style, structure, and body shape. He's got the look of a bull you'll love even more as he gains maturity.
- L9 was an impressive performer from birth to weaning, posting a 103 WW ratio.
- He is homozygous black and homozygous polled, on top of displaying an EPD profile that hits the mark on almost every measurable trait. He's one to study from a data perspective.
- Top 5% ADG, top 10% MARB, top 15% YW, top 20% API, TI, top 25% CW, MILK, top 30% WW, top 35% CED, DOC.

HOOKS ANGEL 11A | Dam of Lot 4

LOT 4

- A knight in shining armor in this year's sale, OMF Lancelot L51 is another strong representation of the KCC1 Countertime 872H sire group with his muscle shape, balanced design, and sound build.
- His donor dam, Hooks Angel 11A, is a prolific female, producing many high sellers and noteworthy progeny in this program. He is a maternal brother to the \$60,000 OMF Hard Right H21. A maternal brother, OMF Kessler K89, sold for \$15,500 to Meyring Cattle Company of Nebraska. OMF Jack J45 is a son by W/C Bankroll 811D that was purchased by Peter Burmeister. A full sister to OMF Jack J45, OMF Honesty H48, topped the bred division of the sale two years ago at \$18,500 to Jesse Haugh.
- This Purebred herd bull prospect is another strong growth candidate thanks to his noteworthy weight measurements. L51 is homozygous black and homozygous polled.
- One of the top bulls in the sale for his marbling genetic figures, in addition to solid indexes of 160 API and 85 TI. This bull can add a lot of value traits to a cow herd.
- Top 3% MARB, top 5% DOC, top 15% API, top 25% CED, top 30% TI, top 35% ADG, MCE.

- You might have to drive from here to Texas to find a bull as stout made and eye appealing as Five Star Lonestar L14. You will appreciate how good this bull is in his build, while carrying excellent depth and shape of rib with the right kind of muscle shape. To top it off, he has a "look at me" charisma.
- The dam of Five Star Lonestar L14 is the prolific Five Star Sheila C1. She is the dam of the \$25,000 Five Star Happi H25 female that was selected by the Jass family of Iowa. L14 is also a maternal brother to the \$8,000 Five Star Jaws J28 that was selected by Collins Ridge Cattle.
- These sons of KCC1 Countertime 872H are showing why they are the leadoff sire group in this sale with their power, style, and genetic excellence. Plus, all of them are homozygous black and homozygous polled.
- This bull reads across his genetic tabulation with as much balanced trait excellence as any in the sale. He checks all of the boxes!
- Top 10% TI, MARB, top 15% CED, API, top 20% ADG, top 25% YW, MCE, CW, top 30% BW, WW.

# THE COUNTERTIME SIRE GROUP

LOT 6

- Extra stoutness and ruggedness best describe OMF Laker L47. He has a stout hip and quarter, big feet, good bone and the masculine herd bull look. Homozygous black and polled as well.
- An individual performance standout in the sale offering with his 105 WW ratio and 112 YW ratio.
- He scores from all angles genetically, leading the way in carcass merit and growth traits. An all-star herd sire prospect.
- His maternal granddam is the prolific OMF Black Betty Y12, a foundation matriarch at Oak Meadow Farms.
- Top 15% MARB, TI, top 25% WW, YW, API, top 35% ADG.

OMF BLACK BETTY Y12 | Maternal Granddam of Lot 6

LOT 7

- Bold in his rib and muscle expression best describe L14, another son of KCC1 Countertime 872H.
- His weaning weight ratio of 117 is the #1 ratio among all the sale bulls. He's a performance stud.
- L14 is a maternal brother to OMF Kensington K19, the TJ Flat Iron 259G son that was purchased by Michael Lynch in last year's sale.
- One of the top carcass improvers in the entire offering, while also being the number 3 YW EPD bull in the sale at 149. Top 4% YW, top 5% ADG, top 10% WW, CW, MARB, TI, top 25% API, top 30% REA.
- Homozygous black and polled.

LOT 8

- OMF Lotto L64 carries added style in addition to the mass and power you expect from a son of KCC1 Countertime 872H. He is supported by the strong maternal foundation of the iconic T60 donor dam, a pivotal female that helped shape the cowherd at Oak Meadow Farms.
- L64 hit the jackpot with his WW and YW ratios both over 105. He is a great fit for a set of mature cows to add power and pounds. Homozygous black and polled.
- Excels in sought after convenience traits, while also being an all-around genetic improver with his 160 API and 86 TI.
- Top 5% MARB, top 15% STAY, API, top 20% DOC, top 25% TI.

T60 | Prolific Maternal Granddam of Lot 8

LOT 9

- An older model of the KCC1 Countertime 872H sire group, and he is full of quality. You will appreciate the red meat and dimension this bull carries around the yard.
- A strong yearling weight measurement, as well as keeping his calves black and polled, as he is tested homozygous for both.
- Maintains calving ease while excelling for growth and carcass genetics. K125 is a unique combination in terms of his paperwork. His maternal granddam is GLS/GF Miss Frontier U30.
- Top 20% ADG, MARB, top 25% API, CW, top 30% CED, YW, TI, top 35% WW.

## NWSS Display Bull

- A powerhouse herd sire prospect leads off the OMF Journeyman J24 2024 sire class. OMF Leverage L22 is powerful, full of dimension from all angles, while still being smooth and balanced in his design. This is a top-level bull.
- OMF Leverage L22 is a maternal brother to the \$22,000 OMF Rest Assured J18, the calving ease specialist that was purchased by King Cattle Company.
- A top-level performance bull, L22 ratios at 107 for WW and 110 for YW. Being homozygous black and polled adds to his value for your operation.
- Few bulls in this offering, or anywhere else, will have as many high marks on their EPD rankings as OMF Leverage L22. Whatever trait you are looking to move forward, this bull likely has the genetics to do it!
- Top 10% MCE, MILK, STAY, DOC, top 15% YW, ADG, top 20% CED, WW, top 25% API, top 30% TI.

# THE JOURNEYMAN SIRE GROUP

**LOT 11**

- When you think of a longshot on the racetrack, it's often a winner that is overlooked. That will not be the case with OMF Longshot L74. You will find this stout featured rascal in the sale pens.
- This homozygous polled son of OMF Journeyman J24 boasts the #2 YW and #6 WW measurement in the entire sale offering.
- A maternal brother sold in last year's sale by G A R Ashland. He was selected by Lockhorst Family Farm.
- Growth, carcass, calving ease, or maternal, L74 meets those with all-around excellence.
- Top 15% CED, ADG, MCE, API, TI, top 20% YW, MARB, top 25% BW, top 30% WW, MILK, DOC, REA.

**OMF KILLIAN K87** | Maternal Brother to Lot 11

**LOT 12**

- Well-balanced and functional best describes the type of L36. He's backed by the matriarch Hook's Angel 11A to further cement his maternal prowess as a sire prospect.
- He is a maternal brother to the lot 2 stud, OMF Last Minute L16. Other maternal sibs to L36 would include OMF Hard Right H21, OMF Kessler K89, OMF Jack J45, and OMF Honesty H48
- Homozygous black and homozygous polled only add value to this son of OMF Journeyman J24.
- Leads the way for maternal traits and calving ease in his genetic makeup.
- Top 15% CED, MCE, MILK, STAY, DOC, MARB, API, top 25% BW, ADG, top 30% TI.

# THE EFFORT & HECTOR SIRE GROUP

**LOT 27**

- Move your herd forward with OMF Launch L99.
- The only son of OMF Effort E74 in this year's sale is a good one. OMF Launch L99 is among the top bulls in the sale pen with his impressive profile and massive construction.
- Longevity and carcass quality are the highlight of his genetic makeup. Those are great places to add value to your crop!
- Homozygous black and polled.
- Top 10% STAY, top 20% API, top 25% BW, MARB, top 30% CED.

**OMF HONESTY H48**

*\$18,500 Full Sister to Sires of Lot 28-30*

**LOT 28**

- If you are looking for a bull to add length of body and extension to your stock, then L71 will be on your short list. He's a good-looking rascal with extra stretch to his frame.
- L71 knocked it out of the park on his performance ledger with a 101 on both WW and YW ratios.
- Homozygous black and polled.
- A carcass quality improver with all-around genetic merits in his selection index values.
- Top 10% MARB, top 15% BW, DOC, top 20% CED, top 25% MILK, API, top 30% MCE, top 35% TI.

# THE JACK SIRE GROUP

**LOT 29**

- L4 is a stout made 3/4 blood with a good frame and stature. He is one of the first sons of OMF Jack J45 that we have offered!
- He's a high-performance prospect with ratios of 103 and 102 for WW and YW, respectively. Add pounds to your calf crop!
- On paper, he's much more than a growth bull. L4 is strong in the carcass arena as well, giving you versatility in how to use this breeding piece.
- Homozygous black and polled.
- Top 10% REA, top 15% DOC, top 25% MILK, top 30% WW, YW, MARB, TI, top 35% ADG.

OMF JACK J45 | Sire of Lots 29 & 30

**LOT 30**

- OMF Longmont L39 is a burly, high-growth rascal with 113 WW ratio and 106 YW ratio. One of the leaders of the pack for performance.
- Homozygous polled son from the first crop of OMF Jack J45.
- With an API of 160 and a TI of 95, this is a top tier bull in this offering for his indexes.
- There are few items in his genetic makeup that L39 doesn't excel for.
- Top 10% WW, TI, top 15% YW, MARB, API, top 20% STAY, DOC, CW, REA, top 25% ADG, MILK, top 30% CED.

### NWSS Display Bull

- A smooth designed, fault free phenotypic standout son of Ruby's Turnpike 771E, from the cornerstone donor Hook's Angel 11A. It's hard to say whether the bull on the hoof or the pedigree is more impressive.
- L8 is a maternal brother to the \$60,000 OMF Hard Right H21, as well as the \$18,500 OMF Honesty H48. The list of maternal sibs to L8 that have been high sellers or individuals of influence for the respective programs that have employed their service is simply too long to list!
- Homozygous black and polled high performer! 900 lb. weaning weight and well over 1,400 lb. at yearling.
- Growth and carcass yield are his strongpoints, but he offers much more genetically. Study the entire sheet on this bull.
- Top 2% REA, CW, top 10% ADG, top 15% YW, MILK, top 20% WW, TI, top 35% MARB, API.

- Curve bending performance in this purebred Five Star Jackson J10 son. 74 lb. at birth up to a 1,355 lb. yearling measure. Expect that type of performance when using him in your herd.
- L1 is a son of Five Star Helena H29, a rising star in the Five Star Ranch herd. A maternal brother to L1, Five Star Kiril K29, sold to Wacker Farms in last year's sale.
- Homozygous polled carries a big advantage in his offspring.
- An exciting genetic combination, L1 is heifer safe with a 160 API and 91 TI.
- Top 10% CED, BW, MCE, MARB, top 15% DOC, API, TI.

# THE FULL FIGURES SIRE GROUP

LOT 36

- OMF/DK Lawson 12L is a homozygous polled Hook's Full Figures 11F son that combines strong phenotype and strong data.
- Another direct son of the iconic OMF/DK Cheers C88 donor dam that has assembled quite the resume when it comes to producing elite SimGenetic seedstock.
- 12L is a bold ribbed, functional breeding bull with plenty of frame to sire calves that grow well.
- If there's a number on the page, it's likely that this bull ranks highly in it. His will be one of the most sought-after number profiles in this offering.
- Top 1% REA, top 15% WW, YW, top 20% DOC, TI, top 30% ADG, CW, top 35% BW, MILK, API.

OMF/DK JOSIE 31J | \$22,000 Dam of Lot 37

LOT 37

OMF/DK GINGER G50

\$14,500 Maternal Granddam of Lot 37

- Adjust your eyes for the color, but not the quality. Lincoln 29L is a good beef bull! Well balanced, rugged, and stout, he's one to watch if you need to add red to your bull battery.
- Backed by a young donor that you will hear a lot more about in the future, OMF/DK Josie 31J, the \$22,000 leadoff bred female in the 2023 edition of this sale. The maternal granddam of 29L, OMF/DK Ginger G50 sold for \$14,500 to Smith Farms of Texas.
- He's heifer safe with explosive growth, strong carcass and index figures.
- Top 4% ADG, top 10% CED, BW, YW, TI, top 15% MCE, MARB, API, top 20% DOC, top 25% WW.
- An intriguing red-hided prospect that needs further inspection.

- What a way to initiate the female offering of the 2024 Oak Meadow Farms Production Sale! OMF Kristy K88 is undeniably one of the best females ever produced in Harmony, Minnesota. Her dam is the everlasting OMF Time Less B100 donor dam that is owned with CK Cattle of South Dakota. K88 is a maternal sister to the industry leading OMF Epic E27. Another maternal brother is OMF Ludacris L17, the lead-off bull in this year's sale that sells as lot 1!
- A robust powerhouse bred heifer to kick off this year's female offering. K88 is bold in her rib shape, shapely in her muscle pattern, stout in her structure, yet still smooth designed and ladylike in her appearance. This is the kind of big-time female that raises sale toppers.
- Homozygous black and polled with a strong numeric profile to back up the incredible phenotype she possesses.
- She is carrying the first service of Bridle Bit Kojak K297, our calving ease and high index selection from the 2023 Bridle Bit bull sale offering.
- Top 10% STAY, top 20% DOC, API, top 25% BW, MARB, top 30% CED, top 35% TI.

- If you like your cow herd to have loads of rib shape and volume while still being elegant in their head and design, then OMF Kelly K50 will fit in at your place. K50 is well-balanced, square made, and a really good future brood cow.
- She's one of the oldest daughters of KCC1 Countertime 872H, sire of many of the bulls who will be popular on sale day. Study the maternal side of her pedigree and you will find Hook's Angel 11A, cornerstone donor dam in this program. This makes her a maternal sister to OMF Laredo L8, who is a member of the 2024 NWSS Pen of Three, as well as a full sister to OMF Lancelot L51. The guesswork is minimal with this pedigree.
- A maternal brother to K50 is the \$60,000 OMF Hard Right H21.
- She's bred to Bridle Bit Kojak K297. The index values on this resulting calf will be nothing shy of awesome! K50 is the number 2 API female in this sale at 170. To top it off, she's homozygous black and polled!

**OMF JURASSIC J58** | Maternal Brother to Lot 57

**LOT 58**

**T60** | Maternal Granddam of Lot 58

- K30 is a soggy bellied, stylish female that commands attention. It's a great opportunity to snag an OMF Epic E27 out of the program with this combination of looks and genomic figures.
- She's expected to be carrying a February bull calf. This mating to LCDR Progressive 106G could pay for the cow or keep him and raise your next herd sire!
- An awesome genetic package for maternal function.
- Top 15% STAY, top 20% DOC, top 25% BW, top 30% CED, API, top 35% MILK.

- K15 is as sharp featured and eye catching as any female we are selling this year. While the neat makeup and square hip draw you in, she's got power and shape to her as well. Good female.
- LBR'S Genesis G69 daughter, stemming from the leading donor OMF/DK Cheers C88. She has three maternal brothers in the bull offering, and she's a showcase of what kind of females those herd sire prospects can produce.
- Ben Thorson purchased a maternal sister, OMF/DKSM Jerrilyn J44, in last year's sale.
- Carrying an AI sired heifer calf adds to her value, being homozygous polled cements it, and her EPD profile enhances it, headlined by being the number 1 API heifer in the sale. There's a lot to like about K15.
- Top 2% TI, top 3% MARB, API, top 10% WW, YW, top 20% BW, DOC, top 25% STAY, top 35% MILK.

- Here is a full sister to the 41J female in the sale, just a year younger model.
- With 36K and 41J as full sisters carrying heifer calves, keep the family together and have a great start on a new productive cow family in your herd.
- Reads with a stronger number profile than her big sister, while also being homozygous black and polled.
- Top 10% WW, STAY, top 25% MILK, top 30% BW, YW, TI, top 35% API.

## THE BRED FEMALES

- K68 is a stocky made, high-capacity lady. Appreciate the balance and quality of this female.
- Her February heifer calf she's carrying is a nice bonus piece to the package.
- High calving ease, high marbling genetics that combine for a strong 148 API value.
- Top 4% CED, BW, top 15% MARB, top 25% API, top 30% DOC.

- K7 is deep bodied and attractive in her head and neck design. She is the kind of female that ties a lot of good things together.
- An own daughter of the legendary Hook's Eagle 6E, combining her quality on the hoof with a big-league number profile that the performance breeders will certainly notice.
- Adding to her merits, she's homozygous black, homozygous polled, and expected to be AI bred.
- Top 15% STAY, TI, top 20% BW, WW, REA, API, top 25% YW, top 35% MARB.
- *Five Star Ranch retains the right to (2) successful flushes with a minimum of 6 transferable embryos per flush. Flush to take place at the buyer's convenience and seller's expense.*

- You will want to read up on Five Star Kindle K33. She's as expressive through her middle body and quarter as any female in the offering. She has the pieces to be a bull-making matron.
- Homozygous black and polled, combining Hook's Full Figures 11F and CCR Cowboy Cut 5048Z in an attractive pedigree chart.
- K33 is a maternal brother to Five Star Humble H21, the WS All-Around Z35 son that was purchased by Ryan Collins in 2021.
- Big growth and index numbers, while still achieving high marks for longevity and docility.
- Top 1% REA, top 5% DOC, top 15% WW, top 20% YW, top 25% STAY, DOC, top 35% API.

- J3 is a Purebred KBHR Sniper E036 daughter backed by a CCR Cowboy Cut 5048Z dam. This one is a low-risk investment to make a future donor out of! We love the extra look and eye appeal that this female possesses. There is no question that she exemplifies what a cornerstone brood cow prospect should look like. She is so elegant in terms of her front third, robust in the shape of her rib cage, with an abundance of body mass and depth. She sets the standard for udder quality!
- Expected to calve early in the year to GW Copperhead 919G.
- J3 is a big data female that covers almost every base well in her EPD profile.
- Top 10% DOC, top 20% MILK, TI, top 25% WW, YW, MARB, REA, top 30% API, top 35% BW.

**GW COPPERHEAD 919G** | Service Sire to Lot 89

# From Our Customers

"We purchased OMF Hard Right H21 with CK Cattle from Oak Meadow Farms a couple of years ago. We admired Hard Right phenotypically and were impressed with the genomics that he was able to combine with such a rugged and functional build. To say we are satisfied with how Hard Right has matured would be an understatement. His first calves are going to be marketed this coming spring sale season, we are excited for our customers to fight over them!"

-Mike Hartman, Hartman Cattle Company, Tecumseh, NE

"I'm sold on this program. The bulls are docile, have great libido and stay in excellent condition in the pastures. With these genetics, we've been able to add significant pounds without frame creep on the replacement females. I'd recommend Oak Meadow bulls to anyone."

-Pete Burmeister, Burmeister Farms, Rowley, IA

"We have been purchasing bulls from Oak Meadow Farms for 15 years to use on our commercial SimAngus cows. We value the docility, structure soundness, and fleshing ability to OMF genetics. Our bulls need to have sound foot structure and be athletic as pasture terrain demands they be able to transverse steep slopes. We own our cattle to the finished product and appreciate how the OMF influenced calves perform in the feedlot. In 2022, we added our first female from guest consignor Diamond K and look forward to the influence she will have. If her first heifer calf is any indication, our daughter has a lot to look forward to in her "first cow's" impact!"

-Shane & Jen Anderson, Wound, IL
